

## Press Release

### Taipei District Prosecutors Office

Release Date: June 10th, 2021

Media Contact: Deputy Chief Prosecutor Cheng

Contact number: (02) 23146881

---

#### **Regarding the case of "Good Liver Clinic(好心肝診所) suspected of illegally administering vaccination", Taiwan Taipei District Prosecutors Office explained the investigation process**

On June 9, 2011, Taiwan High Prosecutors Office instructed Taiwan Taipei District Prosecutors Office (TTDPO) to investigate the case. TTDPO had assigned prosecutors to form the "epidemic prevention and treatment investigation team" as soon as possible. In addition, TTDPO worked with relevant executive authorities to find out whether the persons involved were criminally responsible. If they were found to be administratively responsible, TTPDO would hand over the case to the executive authorities concerned.

In order to properly and quickly clarify the facts and legal relations, TTDPO held a project meeting on June 10, 2011. TTDPO would actively collect evidences and promptly investigate. In addition, prosecutors from Agency Against Corruption, Ministry of Justice Investigation Bureau, Taipei City Field Office, Investigation Bureau, Zhongzheng First Precinct, Taipei City Police Department and other agencies also participated this meeting. These agencies will obtain evidences and information from the National Health Insurance Administration, Taipei City Government, Good Liver Clinic. Furthermore, so far TTDPO have already video-examined 12 witnesses, hoping to find out the truth.
