"The acquittal of Ma Ying-jeou case involving the sale of three media companies and Taiwan Taipei District Prosecutors Office's appeal is killing Ma", and "five appeal reasons to challenge the acquittal verdict of Ma Ying-jeou" from media are conjecture or inconsistent with the facts

Taiwan Taipei District Court made a first-instance verdict on October 27th, 2021, in the case involving the sale of three media companies. Taiwan Taipei District Prosecutors Office (TTDPO) has not yet received the verdict, and will carefully consider whether appeal or not after receiving the judgment. Please do not over speculate on the results and TTPDO inside research and discussion. As for news reporting "hurriedly changed the 1.5-square-meter photocopying room into a 'Intelligence Room', with sound insulation function to prevent eavesdropping..." is purely speculation by the media, which does not match the facts.
