

毒品犯罪隨著時代進步，在國際分工、製造加工、運輸技巧，及毒梟嘗試運用各種通訊設備避免查緝之手法日新月異，且複合型毒品種類不斷推陳出新，因施用毒品所衍生之各項犯罪，嚴重侵害社會治安案例更不勝枚舉，已成為萬國公罪。

鑑於「煙不禁，國日貧，民日弱，數十年後，豈唯無可籌之餉，抑且無可用之兵」（清 林則徐），為有效打擊毒品及其相關犯罪，建立安居樂業的家園，本署自90年12月起，成立緝毒專組以有效掃蕩毒品，檢察官兢兢業業，戮力以赴，緊密結合警政署、調查局、海巡署、關務署等友軍共同緝毒，屢屢偵破重大案件，數十年如一日，展現堅定不移之決心。

鑑於緝毒是國家目前最重要政策，司法警察各機關均戮力以赴，然各地資源、條件及特色各異，如何有效緝毒、防毒，亟需要各界集思廣益。所謂「以銅為鏡，可以正衣冠；以古為鏡，可以知興替；以人為鏡，可以明得失。」（唐 魏徵）。經由蒐集相關案例，累積歷史經驗，結合相關機關，研究發展具臺北地區特色的有效緝毒模式，是本署念茲在茲重要課題。本書為因應現今社會環境變遷之科技發展趨勢，提出查緝中小盤毒品及科技偵蒐之新作為，選輯有關國際毒品犯罪與司法互助等各面向案例；體現打擊毒品犯罪之歷程

與思維。讀者倘能輔以時空背景琢磨研讀，必有所得。

2018年4月付梓成刊，感謝本署同仁利用公餘之暇，蒐集資料並回顧過往辦案歷程，撰文分享寶貴經驗。對黃士元主任檢察官籌劃與編輯之功，毋任感荷。

本書資料蒐集難免疏漏，尚祈先進賢達不吝指正，至感為幸！

臺灣臺北地方法院檢察署檢察長

邢泰釗

2018年4月

Drug crimes have developed with the times in terms of international labor division, manufacturing, processing, and transportation. Due to various communication devices, the methods adopted by drug dealers to avoid drug suppression have changed with each passing day. Moreover, new composite drugs are continuously developed, and the crimes caused by the consumption of drugs continue to impose serious threats on social security and is a criminal offense recognized by all countries.

With the fear that “If drugs are not suppressed, the country will become increasingly impoverished and the people will become ever weaker. In decades, there will be inadequate food and powerful military forces” (Lin Zexu of the Qing Dynasty), this office established the special drug suppression group in December 2001 to effectively combat drugs and relevant crimes, and build a comfortable and secure nation. The dedicated prosecutors spared little effort in their works and cooperative efforts with various partners, such as the National Police Agency, the Inves-

tigation Bureau, the Coast Guard Administration and the Customs Administration, and have achieved fantastic results in a series of major cases. They have been working earnestly for a decade, showing unswerving determination.

Given that drug suppression is the most important national policy in the current stage, over the years, judicial organs and police stations have spared no efforts to combat drug trafficking. However, resources and conditions vary from place to place, and public wisdom is highly expected to effectively suppress and prevent drug trafficking. As the Chinese old saying goes, “One can be well dressed if he takes copper as a mirror; he can know dynastic changes if he takes history as a mirror; he can know his gains and losses if he takes others as a mirror” (Wei Zheng of the Tang Dynasty). Developing an effective drug suppression model which includes distinctive Taipei features of collected relevant cases, accumulated experience and cooperation with relevant organs, is an important issue for this

office. In response to the current trend of technological development in the changing social context, this book proposes new measures against small- and medium-sized drug trafficking and new technology-based monitoring. As a collection of cases involving international drug crimes and mutual judicial assistance, this book reveals the processes and thinking of combating drug crimes. It is beneficial to peruse this book with the given temporal and spatial background.

This publication was printed in March

2018. I am grateful to the colleagues who collected data and reviewed previous cases in their spare time and shared their experience. My gratitude also goes to Head Prosecutor Shih-yuan Huang for his planning and editing.

Any suggestion is welcome.
